Wireless Car Adapter	User Manual	A to C Adapter

※ **If the actual product does not match the package list, please refer to the actual product received.**

Is this product compatible with my car?

The Product is only applicable to vehicles with original wired CarPlay or wired Android Auto.

■ How to check if your car has original wired CarPlay?

Use the original phone data cable to connect your iPhone to the car's USB port. If the CarPlay icon or related text prompt appears on the car's display, your car supports CarPlay and The Product can be used.

Head Unit   iPhone
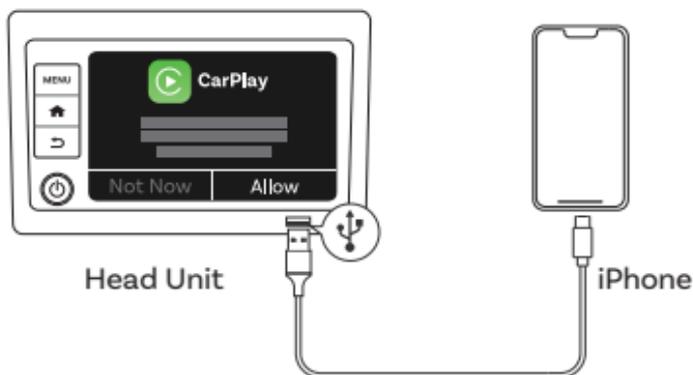

※ iPhone must run iOS 10 or later.

※ If you are still unsure whether your car supports wired CarPlay, please contact your car dealer for assistance.

■ How to check if your car has original wired Android Auto?

Use the original phone data cable to connect your Android phone to the car's USB port. If the Android Auto icon or related text prompt appears on the car's display, your car supports Android Auto and The Product can be used.

Head Unit · Android Phone

※ **The phone must run Android 11 or later.**
※ **If you are still unsure whether your car supports wired Android Auto, please contact your car dealer for assistance.**
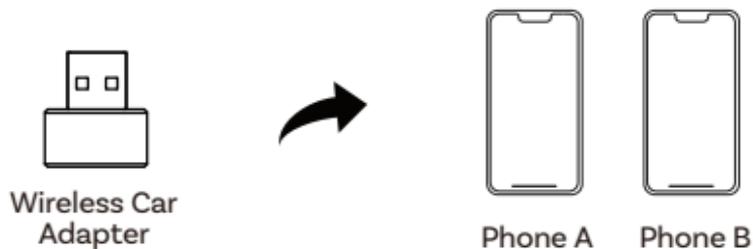

Key Features

※ **The product will automatically recognize iPhones or Android phones. When switching phones, the product will restart automatically.**

※ **Reconnection Mechanism:**

1. If the product has only been connected to one phone, it will automatically connect to that phone when its Bluetooth and Wi-Fi are enabled.

2. If the product has been connected to two phones, when both phones have Bluetooth and Wi-Fi enabled, it will prioritize connecting to the last successfully connected phone. If that phone cannot connect, it will connect to the other phone after 15-30 seconds.
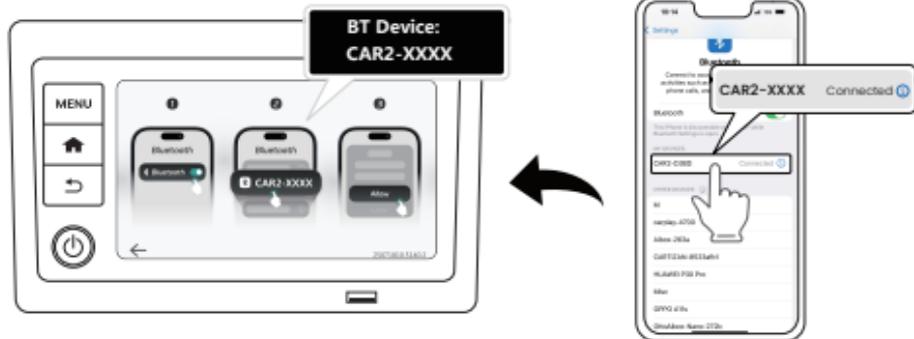

■ How to Switch Phones?

1. Enter the control center of the currently connected phone and turn off Wi-Fi and Bluetooth.

❶ Turn off WLAN
❷ Turn off Bluetooth

2. After successfully disconnecting, turn on the Bluetooth of the other phone and click the Bluetooth name of this product to pair.

BT Device: CAR2-XXXX

## Instructions for Firmware Update and Issue Reporting (iPhone Users)

■ Firmware Update

1. Update when CarPlay is connected.

1.1 Open the phone browser and enter the URL: http://192.168.1.101.

1.2 If an update is available, click "Update".

Instructions for Firmware Update and Issue Reporting (Android Users)

■ Firmware Update

1. Connect The Product to a 5V car power supply (a portable power bank or power adapter can be used as an alternative to the car power supply).

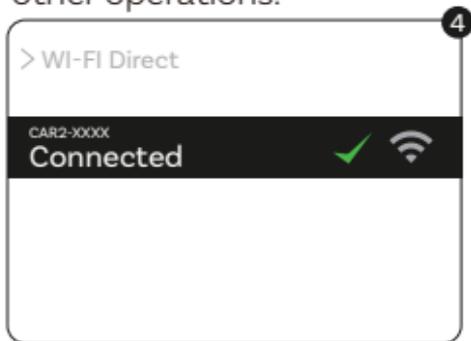

※ **When powered via your car's USB (Android Auto port): Unpair this product from your phone's Bluetooth and turn off Wi-Fi on your phone.**

2. Find the WiFi Direct (or WLAN Direct) function on your Android phone.
(The path to access WiFi Direct varies by phone. For example, on Google Pixel 6 Pro: **Settings** → **Network & Internet** → **Network Preferences** → **WiFi Direct**)
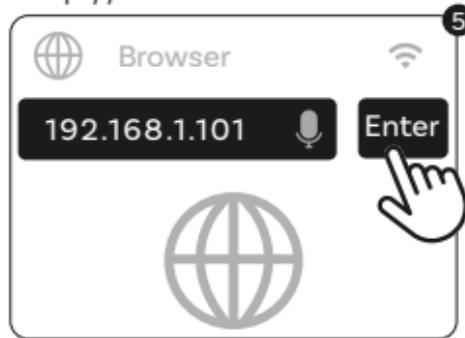

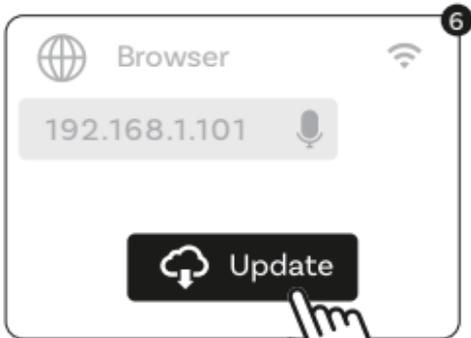

3. Click [CAR2-XXXX] in the WiFi Direct list.

4. Wait for the connection to succeed before performing other operations.
