# GPS SNIPER

## PROTECTION FUNCTIONS

- Sending alarm notification when unwanted movement.
- Built-in tilt sensor to protect the position of the vehicle.
- As soon as the GSM signal jammers unit is raising alarm and blocks engine.
- Sending information on a voltage drop to protect the battery life in the vehicle.
- The system is functional after disconnecting the power supply thanks to built-in backup battery.

## ADDITIONAL ADVANTAGES

- Can be connected to any car alarm for extra security.
- Information on exceeding the speed limit.
- Remote control accessories in the vehicle (independent heating, seat heaters)
- Sleep mode for long-term parking
- Forwarding unauthorized SMS messages
